Relax by the camp fire as our field of dreams comes alive with eastern quolls, brush-tail possums and Tasmanian pademelons visiting the camp fire as wallabies and wombats graze close-by.

Birds are abundant in Mt William NP with honey eaters, wrens, robins, finches, and pardalotes found in the Park. It is also home to yellow tailed cockatoos, harriers, white bellied sea eagles and wedge-tail eagles. Like Mt William, the Bridport Wildlife Flower Reserve and surrounding areas are also known to be home to over 100 bird species including endemics, green rosella, yellow wattlebird, and yellow throated honeyeaters.
